

2015 IWWF Disabled Athlete of the Year

Male

Connor Poggetto (MP) – USA

Connor placed second in the World Championships tournament overall among all male competitors as well as first in seated overall and tricks and third in jump with challenging competition in the tournament's largest division. He also had the highest three-, two- and one-event (thus closest to the world record) scores on the U.S. team, men or women, and the third highest three-event score in the entire tournament among men and women. Connor was selected September's male athlete of the month along with his team as team of the month by his national federation. Finally, he helped assure a fourth team title in a row for the U.S., the only team to have won even three in a row.
